

# Truffle

This gorgeous, sweet-tempered, mild mannered momma just finished nursing seven pups. Not only is she a good momma, but she is kind as well. She let everyone handle her pups without a peep. Truffle is the type of dog that naturally wants to please. She has the natural instinct to stop what she is doing immediately if you raise your voice just a tiny bit. She is extremely calm and well mannered. She would rather snuggle up with you than run or ever be hyper (not that she wouldn't LOVE to hike or take a long walk). Her gentle nature would make her the perfect partner for someone elderly or with a family full of children, but really, she would be happy to be a one person companion as well because she will bond so well. She is the type of dog that you will fall in LOVE with in five minutes because she is just so SWEET.
